PUBLIC ASSETS MAINTENANCE RISK ASSESSMENT REGISTER

A. Asset Identification and Risk Context

S/N	Asset ID	Asset Name	Asset Type	Asset Category	MDA/ Owner	Location	Facility/ Building	Asset Function	Criticality Class	Year Constructed/Acquired	Age	Replacement Value (₦)	Current Use/Occupancy	Responsible Officer
1			Building/ Road/ Equipment/ Infrastructure						Critical/High/Medium/ Low					

B. Asset Risk Condition Assessment

S/N	Asset ID	Component/ System	Condition Rating	Observed Defect/Failure	Defect Severity	Extent of Defect	Cause of Defect	Date Identified	Previous Repairs	Maintenance History	Deferred Maintenance?	Remaining Service Life	Immediate Attention Required?	Photographic Evidence Ref.
		Structural/ Architectural/MEP/Civil/ Equipment	1–5		Minor/ Moderate /Major/ Critical						Yes/No		Yes/No	

Suggested condition rating:

- **1 – Very Good:** No significant defects
- **2 – Good:** Minor defects; routine maintenance required
- **3 – Fair:** Moderate deterioration; corrective maintenance required
- **4 – Poor:** Major deterioration; urgent intervention required
- **5 – Critical:** Unsafe/non-functional; immediate intervention or replacement required

PUBLIC ASSETS MAINTENANCE RISK ASSESSMENT REGISTER

C. Risk Identification

S/N	Asset ID	Risk ID	Risk Category	Risk Description	Risk Event	Risk Source/Hazard	Vulnerable Element	Existing Condition	Trigger/Cause	Potential Failure Mode	Who/ What is Exposed?	Existing Control Measures	Control Adequacy
			Structural/Fire/Electrical/Mechanical/Health & Safety/Environmental/Security/Operational/Financial/Compliance										Adequate/Partial/Inadequate

Recommended Risk Categories for Public Assets

1. Structural failure
2. Fire risk
3. Electrical risk
4. Mechanical failure
5. Plumbing/water damage
6. HVAC failure
7. Lift/escalator failure
8. Roof/waterproofing failure
9. Civil/infrastructure deterioration
10. Road/pavement failure
11. Flooding/drainage
12. Environmental risk
13. Occupational health and safety
14. Public/user safety
15. Security/vandalism
16. Business/service interruption
17. Asset obsolescence
18. Regulatory/statutory non-compliance
19. Financial/replacement risk
20. Emergency/disaster risk
21. ICT/building automation failure
22. Energy inefficiency
23. Accessibility/non-compliance
24. Environmental sustainability/climate risk.

PUBLIC ASSETS MAINTENANCE RISK ASSESSMENT REGISTER

D. Risk Analysis and Scoring

S/N	Risk ID	Likelihood Score (L)	Likelihood Description	Consequence – Safety (C1)	Consequence – Service (C2)	Consequence – Financial (C3)	Consequence – Asset (C4)	Consequence – Environment (C5)	Consequence – Compliance (C6)	Highest Consequence Score	Risk Score (L × C)	Initial Risk Rating	Risk Priority

Likelihood Scale

Score	Likelihood	Description
1	Rare	Highly unlikely to occur
2	Unlikely	Could occur occasionally
3	Possible	May occur during asset life
4	Likely	Expected to occur
5	Almost Certain	Occurs frequently or is imminent

PUBLIC ASSETS MAINTENANCE RISK ASSESSMENT REGISTER

Consequence Scale

Score	Consequence	Public Asset Interpretation
1	Insignificant	No injury, negligible damage/service impact
2	Minor	Minor injury/damage; limited disruption
3	Moderate	Significant repair; temporary service interruption
4	Major	Serious injury/major asset damage; substantial disruption
5	Catastrophic	Fatality/collapse/major loss; prolonged service interruption

PUBLIC ASSETS MAINTENANCE RISK ASSESSMENT REGISTER

Overall Risk Rating

Risk Score = Likelihood × Consequence

Score	Rating	Priority	Required Action
1–4	Low	P4	Monitor and manage through routine maintenance
5–9	Moderate	P3	Planned corrective action
10–16	High	P2	Urgent corrective intervention
17–25	Extreme/Critical	P1	Immediate action; isolate/close asset where necessary

E. Detailed Impact Assessment

S/N	Risk ID	Human Safety Impact	Public Safety Impact	Service Delivery Impact	Financial Impact (₦)	Asset Damage Impact	Environmental Impact	Legal/Regulatory Impact	Reputational Impact	Business Continuity Impact	Estimated Downtime

F. Risk Treatment / Mitigation Plan

S/N	Risk ID	Existing Controls	Control Gap	Recommended Mitigation	Maintenance Strategy	Intervention Type	Required Action	Responsible MDA	Responsible Department	Responsible Officer	Target Date	Estimated Cost (₦)	Funding Source	Priority
							Preventive/ Corrective/ Predictive/ Reactive/ Renewal/ Replacement							P1/P2/P3/P4

PUBLIC ASSETS MAINTENANCE RISK ASSESSMENT REGISTER

Intervention Type

Routine maintenance
Preventive maintenance
Predictive maintenance
Corrective maintenance
Reactive/emergency maintenance
Rehabilitation
Retrofitting
Renewal
Replacement
Decommissioning
Demolition/reconstruction

G. Residual Risk Assessment

S/N	Risk ID	Initial Risk Score	Mitigation Implemented	Control Effectiveness	Residual Likelihood	Residual Consequence	Residual Risk Score	Residual Risk Rating	Risk Accepted?	Approval Authority	Further Action Required
				Effective/Partially Effective/ Ineffective					Yes/No		

H. Maintenance Risk Prioritisation

S/N	Asset ID	Asset Name	Risk ID	Risk Score	Condition Score	Asset Criticality	Service Criticality	Safety Criticality	Regulatory Criticality	Estimated Intervention Cost	Consequence of Delay	Urgency	Overall Maintenance Priority	Recommended Intervention
						Critical/High/Medium/Low					Low/ Medium/ High/ Severe	Immediate/ Short/ Medium/ Long Term		

Maintenance Priority Index

P1 – Immediate:
Life safety, structural integrity, major fire/electrical hazard, critical service failure.

P2 – Urgent:
Major deterioration or failure likely to cause significant disruption or increased cost.

P3 – Planned:
Defects requiring corrective maintenance but not presenting immediate danger.

P4 – Routine:
Minor defects managed through normal preventive/routine maintenance.

PUBLIC ASSETS MAINTENANCE RISK ASSESSMENT REGISTER

I. Statutory and Regulatory Compliance Risk

S/N	Asset ID	Requirement/Standard	Applicable Law/Regulation/ Policy	Compliance Requirement	Current Compliance Status	Non-Compliance Identified	Risk of Non-Compliance	Corrective Action	Responsible MDA	Compliance Deadline	Evidence/Document Reference	Verification Status
					Compliant/ Partially/ Non-Compliant							

Potential areas include:

- Building regulations
- Fire safety
- Electrical safety
- Structural safety
- Occupational health and safety
- Accessibility
- Environmental requirements
- Lift certification
- Generator/electrical installations
- Pressure systems
- Public building maintenance requirements
- Maintenance records
- Inspection records
- Statutory certificates.

J. Emergency and Business Continuity Risk

S/N	Asset ID	Critical Service	Failure Scenario	Maximum Tolerable Downtime	Immediate Consequence	Emergency Response Required	Alternative Facility/Service	Emergency Contact	Temporary Control	Recovery Action	Recovery Time Objective	Business Continuity Plan Available?

PUBLIC ASSETS MAINTENANCE RISK ASSESSMENT REGISTER

K. Financial and Lifecycle Risk

S/N	Asset ID	Current Asset Value (₦)	Estimated Replacement Cost (₦)	Current Maintenance Cost/Year (₦)	Deferred Maintenance Value (₦)	Estimated Cost of Failure (₦)	Estimated Cost of Delay (₦)	Remaining Useful Life	Replacement Year	Lifecycle Risk	Repair vs Replacement Recommendation	

L. Risk Monitoring and Review

S/N	Risk ID	Risk Owner	Monitoring Indicator/KPI	Inspection Frequency	Last Inspection Date	Next Inspection Date	Risk Status	New Defect Identified?	Risk Score Trend	Action Status	Follow-up Officer	Review Date	Remarks
			Monthly/ Quarterly/ Annual				Open/Under Treatment/ Controlled/ Closed		Increasing/ Stable/ Decreasing				

M. Risk Closure

S/N	Risk ID	Original Risk	Corrective Action Completed	Date Completed	Verification Inspection	Evidence of Completion	Residual Risk	Asset Condition After Intervention	Risk Closed?	Closure Approved By	Closure Date	Lessons Learned
									Yes/No
